

1. Nataalka **babbles and vocalizes!** Most often ta-ta-ta-ta (meaning daddy:-)
2. She holds out her hand for the subject that is interesting to her. She points out all the stuffed animals on the shelf until she gets all of them one by one:-)
3. She tries to make grim or serious faces. She finally explores facial expressions of her face.
4. We started psychomotor excercises, during which we learn new developing activities
5. Nataalka understands more and more words, eg "book"
6. She traverses the entire house crawling and discovers new corners
